The Chief Engineer
Local Self Govt Department
Thiruvananthapuram.

Madam Sir,

Sub: Review of Service Level Improvement Plan (SLIP) of Storm Water Drainage and Transport Sector for Atal Mission for Rejuvenation and Urban Transformation.

As you may be aware, Government of India has launched Atal Mission for Rejuvenation and Urban Transformation (AMRUT) and KSUDP has been nominated as the State Nodal Agency for the same by Government of Kerala. The seven cities selected from Kerala under AMRUT are Thiruvananthapuram, Kollam, Alappuzha, Kochi, Thrissur, Palakkad and Kozhikode. The major thrust areas under AMRUT scheme are Water supply, Sewerage, Storm water drainage, Urban Transport and Parks/Open Spaces.

The City Mission Management Units (CMMUs) established in the seven AMRUT cities have extended technical support to the ULBs in drafting the Service Level Improvement Plan (SLIP)s in all five sectors. The SLIPs prepared need to be critically reviewed and finalized by sectoral experts of all concerned departments which will form the basis of the State Annual Action Plan (SAAP) for AMRUT.

You are requested to give necessary directions to the officials of the respective departments to scrutinize the SLIPs prepared for the seven AMRUT cities in Storm Water Drainage and Urban Transport sector with utmost urgency and share the suggestions before 19th October 2015. This will ensure accurate, need based and practical inputs from your department in the service improvement plans of the cities leading to timely implementation of AMRUT. The officials of CMMUs of AMRUT cities will coordinate further in this regard.

Yours faithfully

State Mission Director (AMRUT)

[Signature] Endt of the Chief Engineer, LSGD

All the Engineers related to AMRUT project are hereby directed to scrutinise the SLIPs prepared in Storm Water Drainage and Urban Transport Sector urgently and share the suggestions to CMMUs of AMRUT cities before 19.10.2015.
